## Complimentary research service suspended

In the past, as a courtesy and accommodation, the Department's Property and Casualty Compliance staff has researched and answered questions about specific company rate filings (amounts of rate increases and decreases, effective dates, etc.). In addition, our staff has attempted to accommodate requests for copies of specific rate and rule manuals that had been filed.

Over the years, the number of questions and the number of requests for copies have increased dramatically. In addition, the increased frequency of requests for copies has necessitated that the Department send manuals outside the office for copying, frequently making the manuals unavailable for public viewing inside the office.

Therefore, due to budgeting and staffing constraints, the Department will no longer be able to offer these complimentary services. To assist you in obtaining information about property and casualty rate filing information, we have posted the Summary Form RF-3 information to our website for the months of July 2002 through the current month.

All property and casualty insurance companies must file a Summary Form RF-3 for any rate level change—increase or decrease. Exceptions are: reinsurance, ocean marine, aircraft, title insurance, accident & health, and inland marine risks which, by general custom, are not written according to manual rates or rating plans. The company's filed Summary Form RF-3 will show

the overall change in the company's premium or rate level that will result from the application of the newly filed rates (exact or estimated), and the effective date(s) of the filing.

Forms are posted alphabetically by company on our website according to the line of business affected by the rate increase/decrease, and the month/year the form was received and processed by the Department. During the first week of each month, the forms received in the prior month will be posted.

If you wish to view or copy a specific property and casualty insurance rate manual filed with the Department, you may make an appointment in our Springfield office and may bring a portable copy machine or scanner. The appropriate staff person to contact for an appointment can be found on our website at: [www.ins.state.il.us/RF3-RF3\\_Info.htm](http://www.ins.state.il.us/RF3-RF3_Info.htm).

Keep in mind that only the following rate and rule manuals must be filed: Motor Vehicle as used here includes only Private Passenger Automobiles, Taxicabs, and Motorcycles; Homeowners including Mobile Homeowners; Dwelling Fire and Allied Lines; Liquor Liability, Medical Malpractice, Workers' Compensation and Group Inland Marine.

No other property and casualty rate and rule manuals are filed with the Department. ♦
